FULL STACK DEVELOPER

069 827 5896 | bayandabenkosi.khumalo@example.com | South Africa
github.com/your-github-username | linkedin.com/in/your-linkedin-handle

PROFILE

Full Stack Developer with 1-3 years of hands-on experience designing and shipping websites for real South African businesses. Trained in Full Stack Development and certified through the FNB App Academy, I work across the stack with JavaScript, Python and modern web technologies.

WORK EXPERIENCE

Freelance Full Stack Developer Self-employed, South Africa | 1-3 years

- Designed, built and launched websites for local businesses including Dlokovu Logistics, Zakhele Sneaker Clean and Thabethe Laundry Room.
- Gathered requirements directly from business owners and turned them into clear, responsive page designs.
- Wrote clean, maintainable HTML, CSS and JavaScript and deployed sites to the web.
- Provided ongoing updates and support after launch.

PROJECTS

Dlokovu Logistics HTML5 / CSS3 / JavaScript / Responsive design
A professional business website for a logistics company, presenting its transport and delivery services and making it easy for customers to request a quote.

Zakhele Sneaker Clean HTML5 / CSS3 / JavaScript / UI/UX design
A bold, modern website for a sneaker cleaning business that showcases before-and-after results, lists service packages and drives bookings.

Thabethe Laundry Room HTML5 / CSS3 / JavaScript / Responsive design
A clean, friendly website for a local laundry business with a clear price list, opening hours and a simple way to book a wash or pickup.

EDUCATION

Full Stack Development Institution name | Year - Year
